Cindy,

This is what Rick had prepared to be added as an appendix to the draft report. It has most of what I think would be considered QA/QC metadata for the Phase V results. The tables contained in this document are patterned after QA/QC tables that were developed for the draft report. In my opinion, providing this document covers the QA/QC and metadata table bases. It has more than the metadata tables I proposed, but not as much detail as the QAPP.
